DETAILED ACTION

This action is responsive to the Information Disclosure Statement (IDS) received on 8/24/2006.

Claims 31-35 and 51-54 are allowed.

REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The prior art of the IDS fails to teach all of the limitations of the independent claims in combination with other elements. Specifically, prior art does not teach a design module that modifies a layout of a display element for a user interface of a program running at a server relative to a layout without one or more limitations, and that the modifications include at least one or more of moving an element, replacing an element, changing a property on an element, or removing an element as recited in independent claim 31. Nor does the prior art make a correlation between modifying the layout of elements for a user interface and determined compression limitations. Review and consideration of claims 31-35 and 51-54, in light of the prior art submitted in Applicant's 1449 IDS form, substantiates that claims 31-35 and 51-54 are allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
